## Partida Margarita

Partida is a brand new tequila set to challenge all tequila myths. The Partida Margarita is made with agave syrup, derived from the plant from which tequila is made. It not only makes for a sweeter, smoother taste but also means a margarita only contains 60 calories!

Shake 50ml Partida Blanco Tequila, 25ml freshly squeezed lime juice, 15ml Agave Nectar (available from Fresh And Wild at £2.99) and 15ml mineral water with ice in a bar shaker. Strain into a glass; serve on the rocks or straight, with no garnish and no salt! Serves two.
